Questions

**A1.1 Question 1: Are there drawings/construction documents for the stage and seating that have been constructed?**

Response: Please see the attached drawings. The first three pages are dimensional drawings of the stage and the last page is a conceptual drawing of the seating area. However, please note that the seating area drawing is not accurate as the site required adjustments at the time of construction. The actual seating area is composed of three terraces—the shortest is approximately 47 ft. and the longest is approximately 65ft. The span between the first and third walls is approximately 16 ft.
